

Samoëns is one of France's most family friendly ski resorts and also one of the prettiest. With old traditional buildings, the village is the only French ski resort to have the status of 'Monuments Historique'. Samoëns is a great base camp for the Grand Massif ski area, with access to 265km of linked slopes. The local slopes are tree lined so are skiable even in bad weather, offering some great runs to beginners. Intermediates and advanced skiers can head over to neighbouring Flaine for more challenging slopes. The ski resort has great snow reliability as well as fast lifts, so it's always easy to get on the skis here.
